MARCA LA DIFERENCIA . . .

Rish, S.A. de C.V. es una empresa mexicana con sede en la ciudad de México. Hemos estado sirviendo al mercado minorista y mayorista por más de 30 años, especializándonos en soluciones de hardware. La preferencia de nuestros clientes y nuestro gran equipo de soporte nos ha llevado a convertirnos en uno de los principales fabricantes en la industria de jaladeras y herrajes de calidad.

En los últimos años hemos incrementado nuestras líneas de herraje decorativo y técnico. Por esta razón cada día nos preocupamos por ofrecer un mejor servicio y diseñar productos de vanguardia para satisfacer las tendencias del mercado actuales y futuras. Producimos solo artículos de calidad superior, no sólo por satisfacer una necesidad en el mercado, sino también para mantener el espíritu de la pasión que fundó nuestra empresa e inspirar a aquellos que colaboran en ella.

Nuestra administración buscará ratificar y mejorar esta filosofía para seguir disfrutando de su preferencia.

Dirección General

Rish, S.A. de C.V. is a mexican company based in Mexico City. We have been serving the retail and wholesale market for more than 30 years, specializing in hardware solutions. Our great support team and customer preference has driven us to become one of the principal manufacturers in the cabinet knobs and pulls industry.

In recent years, we have increased our lines of decorative and technical hardware. That is why every day we care about providing a better service and designing state-of-the-art products to satisfy actual and future market trends. We produce only top quality items, not merely for satisfying a need in the market only, but also to keep the spirit of passion that founded our company and inspire those who collaborate in it.

Our team will seek to ratify and improve this philosophy in order to continue enjoying your preference.

# CONTEMPORANEA

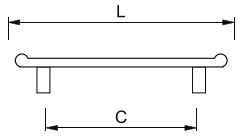

Diseños Innovadores; lineas delicadas que hacen juego con el acabado sobrio y elegante que otorgan el Niquel y el Cromo complementados con la textura pulida que da movimiento a la luz sobre la superficie de cada una de las jaladeras y perillas.
